

FRIDAY, AUGUST 25, 1882.

## THE DAY'S DOINGS.

### MORNING.

Mr. Adams sella furniture, horses, carriages, &c., at 10 o'clock, at the residence of Mr. Toler, Beretania st.

### AFTERNOON.

Fort St. Vestry: Ladies' prayer meeting, at 3 o'clock.

### EVENING.

Fort Street: Young peoples' union at 7:30.

## FIRES ON THE PLAINS.

After the experience of the late fire at Waikiki, the Government ought to take some steps to provide apparatus for extinguishing fires in that locality. Even with all the means at hand in Honolulu for that purpose it is impossible to get them out there in time to do any great amount of good.

We are perfectly sure that, if the means are provided, the householders and property owners there would take the necessary steps to care for the apparatus and would, also, we are assured, themselves turn out at the alarm and man the fire engines and work for the desired end—the speedy extinction of the fire.

And in a country like this every fire is not only a cause of individual loss but a cause of national loss. It means the loss of so much wealth to the nation, trifling, perhaps, in each single case, but amounting in the aggregate to thousands of dollars. And, although prosperous, we are too few in numbers to afford many such losses. Every dollar expended in the country of which the result vanishes, as in this case makes itself felt throughout the community.

We are informed, too, that the necessary provision could be obtained with little trouble. Since the advent of the last steam fire-engine there has been an old hand engine lying idle in Honolulu. Why not give this and a sufficient supply of hose, and have a house erected at some central point where it would be easily accessible in case of need? Probably the only permanent expense would be a watchman stationed to give warning.

We throw out these few suggestions and hope that those specially interested will take the matter up and bring it to a successful issue.

## The Leper Hospital at Kakaako.

On Sunday last, by courtesy of Drs. Fitch and Rodgers, our reporter was shown over the Branch Leper Hospital at the above-named place. It is a deeply interesting subject to every one on these islands, both native and foreigner. No one can have failed to notice the spread of this terrible disease and the ravages it has made, and from experience it is safe to say that race is not a bar to its attack. We are informed that there are no less than seven whites now at Molokai. And yet the Board of Health apparently have not prepared any definite plan for confining and stamping out this fearful disease.

When the ground was first enclosed for this settlement the Board of Health fenced in 200x300 feet; now they have added to its extent, and it is 500x500 feet.

The buildings are frame ones, and those for the patients extend along one side of the enclosure and part of two other sides. Each of these buildings is divided into several rooms, and to instance the number of patients and the insufficient accommodation provided, it is only necessary to state that in rooms, approximately 12x14, there are beds for three or four patients. In any civil-

ized country, if such a state of things were permitted in common lodging houses the police would take the matter in hand. Yet here, owing to the parsimony of the Board of Health, persons suffering from a hideous disease are compelled to dwell in this way. Still it must be distinctly understood that the medical officers are in no way responsible for this. They do all in their power to alleviate the evils of the case; but what is the good of alleviation when a total removal of the evil is what is required.

Besides these buildings there is a cottage for the Supervisor, Mr. Van Giesen, a pavilion also used as a school-house, baths, storehouses, kitchen and out-houses. A thorough system of drainage is in force.

Apparently every patient is contented and happy in the belief that every possible means is being used for their relief or cure. And we must say that those who have the superintendence, Drs. Fitch and Rodgers and Mr. Van Giesen, are three of the kindest and best men for such a work that it has ever been our fortune to meet. To say they are beloved by the patients falls far short of the truth—idolized would be much nearer.

And there is another who feels as great, if not greater, a love for these unhappy people. Her Majesty the Queen is constant in her visits of condolence, sympathy and comfort to the Hospital. Every time she comes she brings them presents, and news of their relatives and friends and last but not least, assurances of her undying love and interest for them. She has been known to come down on foot at 6 o'clock in the morning to comfort some unhappy one. Where can we find a better example of the truth of her title—the Mother of her People?

A few statistics of the disease and the hospital will perhaps be interesting. Every patient is medically examined at least every 10 days, and the whole history of each case from day to day is taken down in a book for reference. Many of these accounts are highly interesting, not only to medical men but also to the ordinary reader. Photographs are also taken of each patient when they come in, and from time to time afterwards, and a marked improvement cannot fail to be noticed. It is calculated that 694 out of 700 attacked by this disease have had it preceded by syphilis, so that it may be reckoned that this disease will only attack the lecherous portion of our community and their offspring. Out of 128 admitted since the opening of the hospital 6 have died, about 20 discharged as cured, and 23 sent to Molokai.

The Board of Immigration had a meeting yesterday afternoon.

What a number of furniture sales this week! Who's the next?

Who is the most courteous official in the Government buildings?

Alakea street is being repaired between Hotel and Beretania streets.

Another rumor: Mr. Smithies will be appointed Minister Plenipotentiary to the Court of Siam.

We are able to contradict the story that a prominent young Hawaiian is to be sent to Europe on Monday.

It is rumored that the manager of the Insane Asylum is dangerously ill.

A few select hats have been received by Mrs. A. M. Mellis, for the ladies of Honolulu, which will be open in a short time, due notice of which will be given.

The bark Emerald, 34 days from Puget Sound, consigned to H. Hackfeld & Co., brought 859,451 feet of pine lumber, 6000 pickets, 10,000 laths, and 180,750 shingles.

The Band will give a concert this evening at Emma Square, at 7:30. Following is the programme:

Overture, Joan of Arc (new).....Verdi  
Waltz, My Friend (new).....Gassner  
Selection, The Sonnambula.....Bellini  
Melody, The Jigoes.....Beyer  
Selection, The Magic Flute.....Mozart  
Gavotte, Our Darling.....Weiss  
March, Baccacio.....Suppe  
Hawaii Ponoi.

We learn that E. W. Purvis, Esq., has been appointed acting Chamberlain, while Col. Judd is absent in Europe. Mr. Purvis is also appointed Military Instructor with the rank of Major.

Messrs. Irwin & Co. inform us that the consignees' mail despatched by the Suez was an unusually large one, there being one sugar sack of letters and three ditto of newspapers.

The prayer meeting at the Bethel on Wednesday night was an exceedingly interesting one. Many anecdotes of the Christian life and work of the late Mr. Everts Chamberlain were recounted.

The Hawaiian brig Pomare is supposed to be lost at sea. She left Puget Sound for Callao laden with lumber, and the latest advices state that she was 105 days out and not yet heard of. The Captain had his wife and family on board.

This is not the regular shopping season, but ladies will use such articles as fans, pocket-books, gloves, handkerchiefs, ties, shawls of all descriptions—all of which they will find at the Honolulu Clothing Emporium of A. M. Mellis.

We learn of the sale of 20 shares of the Hawaiian Bell Telephone Co. stock, at \$20 per share. Par value \$10. Any one having any of this stock for sale would do well to read the advertisement of W. O. Smith & Co. in another column.

YESTERDAY at the Police Court, one confirmed vagrant was sentenced to three months' imprisonment and at the expiration of that time if he can not find work he is to be shipped as a laborer to the plantations for three years. One insane person was sent to the Insane Asylum and three drunks were fined \$5 each and \$1 costs.

The rumor on Wednesday that H. H. Keelikolani was dead is said to have started in the following way: A prominent official was asked why the Custom House was closed and he replied Kamalani (Chamberlain) is dead. A native express driver who was near heard the last syllable and took it for Keelikolani and drove off and soon spread the rumor.

Persons desiring to buy or sell shares of coporation stock would do well to read the DAILY BULLETIN, which will contain the fullest reports of the stock transactions. Excellent opportunities for investment in large or small amounts are being offered.

Our proposals on the subject of refrigerating chambers for the fruit, meat and fish, export and import are about to be put into effect by Mr. Herbert of the Honolulu and S. F. Transfer Co. He has made arrangements to have refrigerating chambers fitted up on all steamers plying between this port and San Francisco, and has also lately made arrangements by which baggage can be checked right through from here to any Eastern city. We wish Mr. Herbert every success in this new enterprise, and hope our readers will give him their support in return for the advantages he proposes to give them.

By courtesy of Deputy Marshal Dayton, we learn the following: A Chinaman named Ah Pau who kept a little shop at Moanalua was out on horse-back on Wednesday trying to purchase pigs. Returning in company with four others, his horse fell with him and he struck his left side against a stone. This happened near Aea mauka of the Ewa road. When picked up he was insensible. He was taken to his own place and ate some food. His partner left him at 1 o'clock on Thursday morning and returning soon after daylight he found him dead. The Marshal sent an officer this morning to investigate who reported that no ribs were broken and that death resulted from internal hemorrhage caused by the accident.

Ice Cream, in any quantity, can always be had at the Elite Ice Cream Parlors.

The Band pavilion has been moved from the lawn immediately in front of the Hotel to the corner on the Ewa side. This will greatly add to the appearance of the lawn, and will also, we think, give a better view of the front of the Hotel, as now that the trees are cut down the really imposing appearance of the Hotel becomes apparent.

The other day a worthy medico was driving along the street in his carriage when he saw a young lady stepping across the street towards him. The face seemed familiar, and scenting a possible patient he drew up his horse. The young lady got in, and after a little chaff the gentleman asked where she wanted him to go. On getting the directions he drove at a rapid pace, and soon arrived at the destination. His fair companion stepped out, and to the astonishment of our scientific friend proffered him a quarter. On recovering from his astonishment he found the young lady had mistaken his carriage for an express. *Tableau.*

## Auction Sales by E. P. Adams

This Day, Friday.

Aug. 25th, at 10 a.m.
